TUCKER'S COUNSEL TO EXPLAIN BLOOD SPOTS

DEFENCE IN PAGE MURDER CASE CONFIDENT
OF SCORING ON STATE.

Charles L. Tucker's attorneys are prepared to explain the blood stains alleged to have been found on his hunting knife and trousers. Thus far these blood stains constitute one of the most damaging pieces of evidence against the man accused of the murder of Helen Page.

The defense may claim that the blood came from Tucker's own body.

The explanation to be offered is that Tucker, at some time not yet definitely stated, carried the unsharpened knife in his coat pocket and, in withdrawing it, his hand came in contact with the blade, cutting his finger and causing the blade to be stained with his own blood.

The importance of this contention, from the standpoint of the defense, can scarcely be overestimated.

The BOSTON AMERICAN has it from unquestionable authority that the defense, if required, will attempt to prove the following points:

On a certain day Charles L. Tucker carried

his hunting knife in one of his coat pockets. The knife was unsharpened, and it is asserted that it will be proved as to why the knife was in his pocket on that particular day.

THE KNIFE AS OFFICERS FOUND

The knife in question is the same that was found by the officers when they searched Tucker's home. In taking the knife from his pocket, he cut his hand and the wound bled quite profusely, staining the blade.

Before the blood had dried on his hand, he was seized by the officers and taken to the police station. It may be said that any effort was made by Tucker to clean the knife, other than to simply wipe the blade.

It will also be claimed that he made no attempt to clean or destroy his blood-stained clothing, notwithstanding the fact that he was a doctor.

State Police and Medical Examiner Believe Children in the Capistrano Family and Guertin Child Did Not Die of Natural Causes—Bodies Exhumed for Evidence of a Possible Crime

Special to the Boston American.

SOUTH HADLEY FALLS, April 16.—The sudden death of four children at this place, three in one family and the other in the family of a relative, are being thoroughly investigated by the authorities, who believe that they were poisoned by arsenic.

The suspicious circumstances surrounding the case caused an examination of the bodies, and the stomachs of the little ones are being examined by Professor Edward S. Wood, the famous Harvard expert, for traces of the poison that it is believed caused the deaths.

The dead children are:

Dorcia Capistrano, aged two years.

Mary Jane Capistrano, aged four.

Louisa Capistrano, aged six.

Lena Guertin, aged seven.

The three little Capistrano children were the daughters of a woodchopper, and Lena Guertin was the daughter of his sister-in-law.

THOUGHT IT PTOMAIN.

The family physician gave it as his opinion that the deaths were caused by eating pork that contained ptomaine poison. Medical Examiner C. F. Branch, of Amherst, says that the children were poisoned with arsenic. He was brought into the case by the selection of this place, where were convinced that the case was too serious a one to be allowed to pass without a careful investigation.

No arrests have as yet been made in the case, but it is expected that sensational developments will follow the report of Prof. Wood. Capistrano, the father of the three little girls, declares that in his opinion they were killed by eating the pork.

All the children died within a week and the cause of death was given as that of eating pork that was diseased.

Examination shows that no one outside family of Capistrano was made ill by the same pork. A piece of it, uncooked, when examined by the State Board of Health, showed no signs of trichina.

On the other hand the symptoms of the children, and the organs of the bodies, showed pathological signs of arsenic.

Professor Wood of Harvard has the view of the children and will make a report.

On Friday, March 25, Capistrano had pork for dinner. It was from a hog that Wood says was fed with arsenic. The pork was used and used about it one and one-half.

BIG SHAKE-UP IN FIRE DEPT.

Many Transfers Announced by
Commissioners to Take
Effect Monday.

Fire Commissioner Russell has made these transfers, to take effect Monday morning: Lieutenant Corley, from Tower 1 to Engine 1; Lieutenant Holman, from Engine 2 to Tower 1; Engineer 1, from Engine 2 to Engine 3; Engineer 2, from Engine 3 to Engine 4; Engineer 3, from Engine 4 to Engine 5; Engineer 4, from Engine 5 to Engine 6; Engineer 5, from Engine 6 to Engine 7; Engineer 6, from Engine 7 to Engine 8; Engineer 7, from Engine 8 to Engine 9; Engineer 8, from Engine 9 to Engine 10; Engineer 9, from Engine 10 to Engine 11; Engineer 10, from Engine 11 to Engine 12; Engineer 11, from Engine 12 to Engine 13; Engineer 12, from Engine 13 to Engine 14; Engineer 13, from Engine 14 to Engine 15; Engineer 14, from Engine 15 to Engine 16; Engineer 15, from Engine 16 to Engine 17; Engineer 16, from Engine 17 to Engine 18; Engineer 17, from Engine 18 to Engine 19; Engineer 18, from Engine 19 to Engine 20; Engineer 19, from Engine 20 to Engine 21; Engineer 20, from Engine 21 to Engine 22; Engineer 21, from Engine 22 to Engine 23; Engineer 22, from Engine 23 to Engine 24; Engineer 23, from Engine 24 to Engine 25; Engineer 24, from Engine 25 to Engine 26; Engineer 25, from Engine 26 to Engine 27; Engineer 26, from Engine 27 to Engine 28; Engineer 27, from Engine 28 to Engine 29; Engineer 28, from Engine 29 to Engine 30; Engineer 29, from Engine 30 to Engine 31; Engineer 30, from Engine 31 to Engine 32; Engineer 31, from Engine 32 to Engine 33; Engineer 32, from Engine 33 to Engine 34; Engineer 33, from Engine 34 to Engine 35; Engineer 34, from Engine 35 to Engine 36; Engineer 35, from Engine 36 to Engine 37; Engineer 36, from Engine 37 to Engine 38; Engineer 37, from Engine 38 to Engine 39; Engineer 38, from Engine 39 to Engine 40; Engineer 39, from Engine 40 to Engine 41; Engineer 40, from Engine 41 to Engine 42; Engineer 41, from Engine 42 to Engine 43; Engineer 42, from Engine 43 to Engine 44; Engineer 43, from Engine 44 to Engine 45; Engineer 44, from Engine 45 to Engine 46; Engineer 45, from Engine 46 to Engine 47; Engineer 46, from Engine 47 to Engine 48; Engineer 47, from Engine 48 to Engine 49; Engineer 48, from Engine 49 to Engine 50; Engineer 49, from Engine 50 to Engine 51; Engineer 50, from Engine 51 to Engine 52; Engineer 51, from Engine 52 to Engine 53; Engineer 52, from Engine 53 to Engine 54; Engineer 53, from Engine 54 to Engine 55; Engineer 54, from Engine 55 to Engine 56; Engineer 55, from Engine 56 to Engine 57; Engineer 56, from Engine 57 to Engine 58; Engineer 57, from Engine 58 to Engine 59; Engineer 58, from Engine 59 to Engine 60; Engineer 59, from Engine 60 to Engine 61; Engineer 60, from Engine 61 to Engine 62; Engineer 61, from Engine 62 to Engine 63; Engineer 62, from Engine 63 to Engine 64; Engineer 63, from Engine 64 to Engine 65; Engineer 64, from Engine 65 to Engine 66; Engineer 65, from Engine 66 to Engine 67; Engineer 66, from Engine 67 to Engine 68; Engineer 67, from Engine 68 to Engine 69; Engineer 68, from Engine 69 to Engine 70; Engineer 69, from Engine 70 to Engine 71; Engineer 70, from Engine 71 to Engine 72; Engineer 71, from Engine 72 to Engine 73; Engineer 72, from Engine 73 to Engine 74; Engineer 73, from Engine 74 to Engine 75; Engineer 74, from Engine 75 to Engine 76; Engineer 75, from Engine 76 to Engine 77; Engineer 76, from Engine 77 to Engine 78; Engineer 77, from Engine 78 to Engine 79; Engineer 78, from Engine 79 to Engine 80; Engineer 79, from Engine 80 to Engine 81; Engineer 80, from Engine 81 to Engine 82; Engineer 81, from Engine 82 to Engine 83; Engineer 82, from Engine 83 to Engine 84; JUDGE EMMONS WILL SUPPRESS GAMBLING AT BASEBALL GAMES

WHEN HE INSTRUCTS AN OFFICER THE MAN REMEMBERS THE JUDGE'S WORDS

A CONGRATULATORY LETTER MAKES HIM SMILE

Poolrooms Must Close Up Early, Lord's Day Must Be Observed, and War Upon Drunkenness to Be Waged.

"I will prohibit gambling on baseball altogether when the season opens," says Judge Emmons. "It is against the law."

The suppression of betting on baseball is a part of the programme which Judge Emmons has laid out for himself in his effort to make Boston "the cleanest city in the United States." As head of the Police Commission, this is his ambition, and he won't be happy till he gets it.

"A prominent traveler says that Boston today is the cleanest city in the United States. I shall do all in my power to make this a fact. Crime and vice in no form will be tolerated in Boston while I am at the head of the Boston police department."

This spoke Chairman Emmons to an American reporter.

"I don't state any special credit for what has been done in the way of reform since my appointment as Chairman of the Police Commission. The credit should be equally divided among the other members of the board and the officers who have carried out their orders."

"There has been drunkenness than before," said the reporter.

"There is not much of it. It is not as bad as it was in the police reform. There were many more arrests for drunkenness last year than there were during the year previous, and this great increase in arrests was caused by the special efforts of the board during the last six months of the year."

"You shall keep right after the drunkenness of the anti-betting board," said Chairman Emmons, expressing his belief that there was not a long time in the city.

No More Boring.

"Legal betting has entirely disappeared," said the judge. "Boston is the only city in the country now where betting is legal."

and in regard, I shall see to it that it does not return," added the Chairman, the judge replied.

"It is true that the epidemic of betting and gambling matches in Boston has stopped. It is true, I believe, in due to the fact that the police have literally driven every gambling, dice, and card game from Boston today. The very men, tramps and cranks have all been thrown out of town. It is my intention that they shall not return."

"But those who are not really desiring to be good are bound that shall get rid of gambling. I think, has been stopped. It is true, I believe, in due to the fact that the police have literally driven every gambling, dice, and card game from Boston today. The very men, tramps and cranks have all been thrown out of town. It is my intention that they shall not return."

"But those who are not really desiring to be good are bound that shall get rid of gambling. I think, has been stopped. It is true, I believe, in due to the fact that the police have literally driven every gambling, dice, and card game from Boston today. The very men, tramps and cranks have all been thrown out of town. It is my intention that they shall not return."

JUDGE EMMONS, WHO SAYS HE WILL PURIFY BOSTON.

HALO FOR RIGHTEOUS TELLS So New Cult SOUL COLOR Norm Teaches

GREAT GRANDNIECE OF GLADSTONE PROCLAIMS "AURA" THAT BECOMES NEW FAD.

By Boston American's Leonard Wire.

NEW YORK, April 16.—Do you want to see the color of your neighbor's soul? If you do, just acquire a knowledge of the new cult.

New York has a new high priestess of a startling cult, and if her students could see the color of the soul, they would be of the "blessed," the common salvation is likely to be: "What color is your soul?"

Instead of "How are you?"

Mrs. Margaret Gladstone Stuart—no less a person than a great grandniece of England's "grand old man"—is the medium.

OLDEST OF THEORIES.

"It is one of the oldest theories in existence, coming down from religious teachers of the East and finding its widest manifestation in the golden light or halo surrounding the heads of Christians and saints," Mrs. Stuart said. "That every human being is constantly sending forth an aerial radiance—call it atmosphere, aura, or electricity or auras."

Everyone has felt this at one time or another, and those who are interested in this line of study have got to the point where they can see the color of the soul. The color of the soul is a reflection of the state of the mind, and it is a reflection of the state of the mind. The color of the soul is a reflection of the state of the mind, and it is a reflection of the state of the mind.

DR. EVERETT PLAYS JOKE

Begin Holiday Recess This Noon, Owing to Slack Trade Conditions.

LOWELL MORE FORTUNATE

QUINCY, April 16.—Dr. William R. Everett gave in the High School Hall last of a series of lectures in aid of the City Hospital.

The lecture for an hour and a quarter and succeeded in moving his hearers profoundly with his description of the death and descent to hell of a child who had been born with a fatal disease.

The audience was led to expect some illustration of the horrors of the poem depicted, and lights were turned down as the recitation proceeded in awe-compelling tones. A gleaming shriek announced the descent to hell. Lights were turned up and the startled audience saw the doctor laughing at them.

Dr. Everett has been in Quincy for some time, and he is very popular here. He is a very good doctor, and he is a very good man. He is a very good doctor, and he is a very good man.

REPAIR WORK

"A stitch in time saves nine," is as true of furniture as of clothing.

We have now arrived at the time of Spring house-cleaning, and April is the one month in all the year when the condition of your household furniture should have careful attention.

Some pieces need repair; others need repolishing; one or two may need upholstering; one may need recovery.

It costs but a trifle to set all this right if you are in no hurry. When a customer is willing to give us all summer to do his repairs we can quote exceptionally low figures.

A postal card secures our estimate. We send for the articles at any time you wish, and make no charge for teaming or storage.

SAYS CAUCUS WAS ILLEGAL

NORTH READING, April 16.—William B. Moore, secretary of the Democratic State Convention, and a strong advocate of the caucus, has declared the caucus to be illegal.

Mr. Moore says the caucus was illegal because it was not held in accordance with the rules of the party. He says that the caucus was held in a room which was not a public place, and that it was held in a room which was not a public place.

BOLD WOOD MEN AT AUSTIN

LONDON, April 16.—Miss Bertha Dill of Chicago, was married here today to John C. King of the New York Exchange. She is the daughter of Henry Dill, a millionaire real estate operator.

The Dill family were visiting Egypt and had just returned to the United States. They were visiting Egypt and had just returned to the United States.

PLAYED BRIDGE WHIST 4 DAYS

NEW YORK, April 16.—A continuous game of bridge whist, lasting four days and being stopped only when one of the players was killed, was played in a room in the Hotel New York.

The game was played by a group of men who were staying in the hotel. They were playing bridge whist, and they were playing it for four days.

TEN ACRES SET AFLAME BY OIL

BEAUMONT, Tex., April 16.—The explosion of an agitator at the No. 3 refinery of the Gulf Refining Company, at Port Arthur, has resulted in the almost total burning of the refinery, with a loss of nearly \$200,000. Three men were injured, and two of them were killed.

The agitator was blown over 100 feet into the air, burning oil being scattered over about ten acres of land, buildings and machinery. Instantly the entire area burst into flames. Three 24-inch barrel tanks here, having their tops off, flames shot fifty feet into the air.

COUNTERFEITER BAUMENBLITT IS SET FREE RETURNS TO HIS CHILDREN AND WAITING WIFE

Released on his personal recognizance in the sum of \$1,000 and with sentence definitely postponed, Joseph Baumenblitt, the confessed counterfeiter, upon leaving the United States Court room today a happy man.

He said he was going direct to Newark where he has a wife and two children. Next week the trial of Nathan Stein and Morris Hoshan, two of the alleged New York partners, will take place in that city. Baumenblitt will be the state witness for the government.

Mrs. Stein, who confessed last Wednesday was brought from Chicago April 24th with Baumenblitt for sentence to death, but prior to his escape, he had been released on account of the absence of his attorney, Morison.

MRS. JACK MAY ADOPT PROTEGE

G. W. Proctor, Pianist and Art Connoisseur, May Fill the Place of a Son.

It is rumored in New York society that Mrs. Jack Gardner will shortly adopt G. W. Proctor, the brilliant pianist, who has been her protegee.

Proctor, now living near Bridgewater about thirty years ago. The story of how Mrs. Gardner "discovered" him and sent him abroad to study under the best masters is well known.

The young musician, who is also a composer, was introduced to Mrs. Gardner by her father, and in addition to her mother, she has adopted him as her son. Proctor, who has been a long while at the Gardner place, is the guest of her and her mother. The fact that the friend of the pianist is also the friend of the artist, it would not be strange if Mrs. Gardner should adopt the young man as an adopted son.

COUNTRY CLUB FOR WOMEN

Appeal Made for Place Where Girls Can Enjoy Brief Vacations.

Mrs. E. C. Dwyer, of Upland road, Brookline, issues an appeal to public-spirited Boston people, in which she calls attention to the need for the Massachusetts Association of Women Workers for a small place or farm in the suburbs of Boston where it can maintain a country outing place for the women and girls connected with its clubs. She says:

"It should be large enough to accommodate a few girls over night, though the chief use would be during the day, after the Saturday and Sunday afternoon. There is a large number of girls who are regular vacationers, who would be grateful for a place to spend the day and the week where the older ones can rest and the younger ones can enjoy the same. It is a place where a simple supper or lunch could be served."

MAY BE VICTIM OF THE PLANE

Becket Woodchopper's Death Being Investigated by State Officers.

FITZFIELD, Mass., April 16.—State officers are investigating the strange death of the Fitzfield household, which killed a woodchopper, employed in Becket. He was found on Tuesday night in a dazed condition with an arm broken, and was never recovered, and suffering from hemorrhage, two strangers, who the police have not discovered, took him to a wagon to the house of J. J. Dwyer, a farmer near Becket, where he was found. An autopsy was performed at the house of the Dwyers, and it was found that the man had been killed by a blow on the head, or that he was wounded by some one.

\$200,000 PLAN BURNED.

WHEELING, W. Va., April 16.—Fire early this morning completely destroyed the \$200,000 plan of a George Glass Company at Wheeling. St. George & Sons' stock works, valued at \$200,000, were also badly damaged.

CARELESS WATCHMAN KILLED IN EXPLOSION

NEW YORK, April 16.—In a terrific explosion of steam which wrecked the building at No. 50 North Street, Brooklyn, one man was killed and eight girls badly injured. The explosion was caused by the carelessness of the watchman, who paid for his inattention with his life.

FOR A LIGHTSHIP AT HEDGE FENCE SHOALS

WASHINGTON, April 16.—The Senate today passed a bill appropriating for the construction of the lightship at Hedge Fence Shoals, Connecticut.

OIL KING'S \$10,000 SECRETARY TALKS

MISS HARRISON, MR. ROGERS' TRUSTED HEAD CLERK, BREAKS SILENCE.

It is a fact that the oil king's secretary, Miss Katherine Neill Harrison, has broken her long silence. She has been the trusted head clerk of Mr. Rogers for many years.

Miss Harrison, who is a woman of great ability and integrity, has been the right hand of Mr. Rogers in all his business dealings. She has been the one who has kept the oil king's affairs in order for many years.

MISS KATHERINE NEILL HARRISON.

A \$10,000 a Year Secretary to Nathaniel B. Rogers, a Boston American. This is the First She has Ever Published.

FOR the first time, K. E. Harrison, the first \$10,000 a year stenographer in the world, has been interviewed by a newspaper man. She did not say much, but she did say enough to show that she is a woman of great ability and integrity.

She has been the trusted head clerk of Mr. Rogers for many years. She has been the one who has kept the oil king's affairs in order for many years.

GIRL TOOK POISON BY MISTAKE; DIED

Continued from First Page.

word the prescription I wrote ordering 'oil' for the young woman, and will hold it to show that I was not mistaken. It is a very unfortunate error."

SISTER DESCRIBED CASE.

At the Candy house today Mrs. Ellen McKee, a sister of the dead girl, said: "When the doctor wrote out the prescription I sent my sister Kate, who is fifteen years old, around the corner to 'Buck's' drug store, on Main street, and she brought back a bottle of what was supposed to be the medicine. I poured out some of the substance in a tumbler and made her drink it. She cried out that it burned her mouth, and I tasted it. It tasted very bitter, and I sent for Mr. McDonald, who is a doctor. He said it was a mistake, and I should not have given her that."

NO POISON LABEL ON THE 'LYSOL' BOTTLE

It is hard to conceive how 'Lysol' could be mistaken for 'Arsenic.' 'Lysol' is a disinfectant, and contains only a small amount of arsenic. It is a very common mistake.

DEAD GIRL POPULAR.

Mrs. Cassidy was an elegant looking woman, and was employed at No. 104 State street. She was a very popular young woman in Charlestown, and was considered the belle of the neighborhood.

ASSOCIATES IN TEARS.

All of the girls employed by a cannery on State street, where Miss Cassidy was killed, are in tears today. They are all very sad and are mourning for their friend.

DEED PROOF HAWK SLAIN

Carbolic Acid Was Not Swallowed by the Young Woman.

PEN GIVES POLICE CLUE

By HONORABLE AMERICAN LEASED WIRE.

PROVIDENT, I. I. April 16.—That the woman supposed to have been Martha Lamb, whose body was found in the woods near Greenland country, was murdered somewhere else and her body carried in a sack to the spot where it was found, is the belief of Detective Attorney Charles P. Nolan, of Nassau County.

A new and most important clue was discovered today when, at the spot where the body lay, there was found a fountain pen bearing the initials 'O. M.' This pen is believed to have belonged to the girl's slayer, and the initials are believed to be those of the guilty person.

Disputed with the way Coroner Nathan has handled the case, and believing which, it given out when the body was found, a fountain pen was found. Mr. Nolan has taken the case from the hands of the coroner and will conduct the investigation himself.

Mr. Nolan has his belief that the body was not slain at the spot where it was found, and that it was carried there from somewhere else. He believes that the body was carried there from somewhere else.

TO EXPLAIN THE BLOOD STAINS

Continued from First Page.

It has been said that blood stains are the most difficult to explain. In this case, the blood stains on the side of the pocket, the inference to be drawn by the defense is that after cutting the pocket, the blood stains were found. This, the defense says, is the only way to explain the blood stains.

State's Case May Hinge On Prof. Wood's Report

Continued from First Page.

"The blood stains found on Tucker's clothing and the knife in the possession of the State, are the only evidence in the case. The blood stains on the side of the pocket, the inference to be drawn by the defense is that after cutting the pocket, the blood stains were found. This, the defense says, is the only way to explain the blood stains."

Parker Wants Special Grand Jury for Tucker

Attorney General Herbert Parker will today have notices sent out for the calling of a special grand jury to try the case of Tucker.

SINGLETON PALMER IS 10TH IN PALMER FLEET

WALDBORO, Mass., April 16.—With the launching of the new Italian gunboat, the 10th in the Palmer fleet, the Italian gunboat, the 10th in the Palmer fleet, the Italian gunboat, the 10th in the Palmer fleet.

ITALIAN EMBASSY TO SUMMER AT MANCHESTER

WASHINGTON, April 16.—The Italian embassy will spend this year at Manchester, England.

GAS ON THE PIE MAN

The Kind That Mother (Didn't) Used to Make!

LAWRENCE, April 16.—George Dewey, Jr., accused of larceny of \$23,000 from the Lawrence Co-operative Association, and the sale of books, was bound over to \$10,000 on each charge by Judge Stone today.

Mr. W. H. Atwater, accused, said that his examination of the books reveals a shortage of \$17,701.05 for the quarter ending Sept. 30, 1900. The actual balance should have been \$19,200, while it was only \$1,500.05.

DEAREST HELEN FOR GRAND JURY

Continued from First Page.

Tucker's exclusive possession on the day of the murder or any other day. It will undoubtedly be put in evidence for the defense that the knife which the police detected caused the death of Mabel Tucker was used at all times by the Tucker family as a common household utensil. Tucker's father and mother may testify, if required, that they have frequently used the knife in the kitchen.

FATHER IS ILLITERATE.

Capitoline, the father of the girl, is illiterate. He cannot read or write. He is a very poor man, and his family is very poor.

HAD BEDBUG POISON.

"Have you had any poison in the house?" "No, I haven't. I don't believe there is any."

MOON DANCES GRIEK BRIDE

By BOSTON AMERICAN LEASED WIRE. NEW YORK, April 16.—All the Greek brides who have been married in New York since last Thursday evening are now in the city.

DRUGGIST CONVINCE JURY

President C. P. Farns of the Massachusetts Pharmaceutical Association, today convinced the jury that the girl was not poisoned by the druggist.

WOMEN CHAMPION TUCKER.

Chief clerk has been found guilty of the murder of Mabel Tucker. The women of the city are now championing Tucker.

DESPONDENT
9-YEAR-OLD CHICAGO BOY
ASHAMED BECAUSE HIS
MOTHER DRANK
GOT ROPE AND TRIED TO
HANG HIMSELF.

CHICAGO, April 10. Made despondent by the insanity of his mother, Frank Lacey, nine years old, tried to hang himself in the basement of his grandmother's residence. He was nearly unconscious when found, and in court he said:

BOSTON STOCKS

STEADY DULL

The Boston market was steady to-day on light trading, and Daily-West was strong and closed half a point up, while Telephone and Pneumatic preferred were off a quarter. There was very little trading in Coppers. Atchison was off a fraction.

**STOWAWAY STARVED
TO DEATH IN HOLD**

HALIFAX, N. S., April 16.—When U. S. workmen removed the forward hatch of the Allan line steamer *Autstrian*, from Liverpool, the body of a stowaway, who had boarded the vessel at Liverpool and starved himself in the hold, was discovered.

from starvation. The form was practical reduced to a skeleton. Paper found on the body identified it as that of Robert Lee, St. George's House, Dale street, Liverpool. He was cooped up for eighteen days without food or water.

TAD SHOWS WHAT BIG FIGHTERS TELL MUNROE ABOUT JEFF. WHAT CAN THE MINER THINK?

COUNTED OUT IN THE FIRST ROUND

Special to the Boston American.
BIDDEFORD, Me., April 16.—In just one minute and thirty seconds of brutal whirling fighting in the first round Young Sullivan, of Lawrence, put John L. Sullivan, of Biddeford, down and out with a stiff right phalanx punch and rendered him so helpless that he would not get up in time to fight the second round.

HANDLER IS AFTER O'ROURKE'S SCALP

Jimmy Handler of Newark, famed as a "brawler," came to town today. He offers to meet any man in the country in a four round sparring exhibition at John L.'s hotel.

LYONS'S BLOWS HEAVY BLOW TO LACK STEAM CHICAGO SPORTS

By Boston American Special Wire.
BARTHOLOMEW, Md., April 16.—Tom Day was given the decision over Harry Lyons here at the end of a fifteen round bout at catch weights. It was the first appearance of Lyons in the ring for two years, and it was evidence from the fact that the colored man's blows lacked steam.

OLYMPIANS WANT GAMES.
That first little baseball club, the Olympics, of East Boston, where "crazy" teams grow in every corner, is again in the news. It is now a "club" and they play every game on the uniform but none April 15, and tomorrow, give or take a day, they will play their first game.

FITZ AND M'COY WILL MEET IN A SIX-ROUND BATTLE

NEW YORK, April 16.—John Fitzgibbon and "Kid" McCoy are practically matched to meet in a six round battle in Philadelphia. McCoy has accepted Fitzgibbon's offer to arrange a match, to take place in the near future, but the Hammer boxer will not be able to enter the ring with his opponent in some time, owing to an engagement with Jack O'Brien, who is also scheduled to take place in Philadelphia.

JEFF AND MUNROE FIGHT ON JUNE 17

Special to the Boston American.
SAN FRANCISCO, April 16.—Champion boxer J. Jeffries, of Los Angeles, and Jack Munroe, of Butte, Mont., have been challenged to meet in the ring in Mechanicsville on Friday evening, June 17.

WHAT THE HORSEMAN ARE TALKING ABOUT

Prince Albert, 1977, driven by Mort Brown and last T. 2015, bought by the late John Splen, will exhibit at the agricultural fair this season.
The British broodmare of Devereux, who has won out of the light harness race for several years, have bought Christine, 2090, born 2114, and Christine, which last year as a two-year-old showed a mile in 2:19.
Scott Hudson refuses to make outland down the Grand Circuit because of the new rule compelling an entrance for one each horse.

At the same time, Jeffries was at the Oakland track, but did not win the hand at double winners. He said he would leave for Hartford during a few days and would begin training at once.
There will be very little of the usual "horse talk" at the fair, as the men will be busy with the horse and the dog with the horse, living the life of a sportsman. He will look and punch the bag occasionally, but only to introduce a little change in his daily habits.

MELROSE HIGH'S FIRST GAME

Manager Edward M. Harris of Melrose High School football team announced he will open the season on Saturday with a lively game against the alumni of the school, at Melrose Park. There will be a meeting of the Alumni of the school at the Melrose Park grounds and put them in good shape for the season. The future of the school team, Monday night.

EAP year still holds the interests

deration. He who truly wishes the happiness of any one cannot be long without discovering some mode of contributing to it. Reason itself, with all its light, is not so rapid in discoveries of this sort as simple affection, which sees means of happiness, and of important happiness, where reason

a formal proposal in words; the pressure of a hand, a look, a broken sentence, a silent tear, are often far more efficacious; and in the language of love looks stand for words. Only the most dry-natured and abrupt think it necessary to "pop the question" in so many definite sentences; both

The extreme weariness felt by persons upon getting out of bed in morning is often largely due to the natural position in which the body rested during the night; the muscles

of the general public. True confessions of the inner life would reveal in many

And slippers.

AN economical woman has discovered another little way to make the most of what she has.

White or colored kid slippers often become shabby in appearance because the kid has been peeled off the heels. If the slippers are otherwise in good condition the heels can be made to look like new by cutting from the top of an old glove of the same color a piece of kid large enough to stretch and paste about the heel. The upper edge can be securely pushed under the sole of the shoe and neatly trimmed at the bottom. If not worn until perfectly dry the result is most satisfactory.

BLACK SILK MUSLIN GOWN. DRESS OF PALE BLUE MULL.

HEARST'S BOSTON AMERICAN PATTERN

~~~~~

**Girl's Plaited**

Dress.

45-46

The Russian model in plaited style is such a constant favorite that it seems superfluous to speak of it, yet this one

shaped and the features that are characteristic of the present modes. The waist is held in by a pair of buttons at the front. The above is still the latest approved style, having plaits stitched in either length and then left loose to form a full blouse above. The circular skirt carries out the idea of waist shaping and intrinsically a pretty flare, something not obtainable when the skirt and waist are made in one. Checked and striped materials for everyday wear, and satins and

a nice wool dress, with velvet for the collar and cuffs. A large lace collar may also be worn for greater occasions.

HEARST'S BOSTON AMERICAN will mail a pattern of the above on receipt of 10¢ note for cover all cost of handling, etc.

All orders should be addressed to HEARST'S BOSTON AMERICAN, PATTERNS DEPT., P. O. Box 230, Boston, Mass.

WILLIAM RANDOLPH HEARST.

80 AND 82 SUMMER ST., BOSTON, APRIL 16, 1904.

STOP

The Smoke Nuisance.

The way to STOP the soft coal smoke nuisance is to enact House Bill No. 808 into law. The Legislature should pass this measure at once. The bill is approved by everybody except those persons who use soft coal. There is not one argument that can be used against the bill. The people are tired and worn out protesting to the officials against the smoke nuisance. It is the DUTY of the Legislature to pass the bill forthwith. The way to put an end to the nuisance is to first secure a law prohibiting the use of soft coal, and then punishing to the fullest extent every violator of the law. Pass House Bill No. 808!

A Sad Letter from a  
Heart-Broken Mother.

Few Such Letters Reach Any Newspaper Office.

its alternating self-reproach and protests against poverty and social conditions:

Hon. W. R. Hearst:  
Dear Editor—At last, thank God, my boy is asleep. After the long fever of the previous day he is resting quietly, and I am all alone, watching him in the dead of night. A few very strange thoughts came into my mind, which I wish you would deem it worth your while to explain to me. Are not all babies born to the world to be raised to maturity and then live a life of usefulness, and die at advanced age? Or are some babies only born for that purpose, and the rest doomed to die in infancy or childhood?

And will there ever come a time when mothers will be prosecuted for losing a child through sickness, the same way as they are now for strangling one to death? These questions please answer through your valuable editorials, as this is the only paper I read.  
Dear Editor, until a week ago I was the happy mother of six of the healthiest children. To-day I mourn the loss of one of them, a girl of five years, for whose death I cannot console myself, in spite of my doctor's assurance that everything that science could do was done for her, and she simply had to die. She died of scarlet fever, and the officer of the Board of Health, in enforcing the law, said to me that my three other children attending school will have to stay home now for three weeks. Being fearful of another such attack, I prepared my children to be able to resist it. Two more were stricken the same way, and as I see how easily they yield to treatment, and how quick they are pronounced out of danger, I do ask myself that question: Was it the will of God to take my baby that the others may be saved? (What a price for the warning!) Or am I responsible for her death, by neglecting to look for trouble before it actually was here?

These questions you must and shall decide for me, for the sake of myself, husband and remaining five children, the oldest of whom is only thirteen.

Why is it that almost every mother will blame herself for losing a child, either in not doing enough for the dead one, or in overdoing? I have never yet met one who could not lay the blame on something or some one as the true cause of her child's death. Does it not show that the parents themselves are responsible for their child's death, in being short-sighted about its welfare?

God alone knows how long we will have to struggle in our present state of misery, where poor mothers, with very large families, and very small incomes, have to toil night and day in order to raise them.

P. S.—If you deem it worth while to write an editorial about it, please do not mention my name, for the sake of my great sorrow.

The extraordinary conscientiousness and unselfishness of mothers are shown in the fact that this poor woman blames herself for a loss that could not possibly have been avoided. In the midst of poverty, with a large family, she did the best that she could.

She asks herself now whether some children are born to die, as a warning to their parents, and others to live. She even wonders whether mothers should be prosecuted for losing a child through sickness.

We print the letter gladly, because its tone of deep sincerity and sorrow will arouse sympathetic echoes in the hearts of many women who have been compelled to see their children die.

Children are not born into the world to leave it in infancy. Mothers are not condemned to the terrible suffering of motherhood to lose their children before their useful days begin.

But society itself is sick, or rather, it has not yet found itself, it is not yet organized.

Poverty kills more children than wild beasts ever killed. Poverty tortures more mothers, in this great city alone, than were ever tortured during the Christian persecutions in Rome.

The deaths of young children are wrong, they are unnecessary, they constitute a fearful indictment against the conditions of so-called civilization. But, for the present, they are inevitable, and they do, of course, educate us through sorrow, through the misery of experience.

This suffering mother is wrong to blame herself, and wrong to torment herself. Her religious belief tells her that God gave her the child; how can it tell her that some beneficent God took the child away as a punishment or a warning?

Of all the Bible's teachings, the most beautiful are those that refer to the sacredness of childhood, to God's love of the children. It cannot be conceived that such a love could arbitrarily decree the painful death of any child, or any mother's suffering.

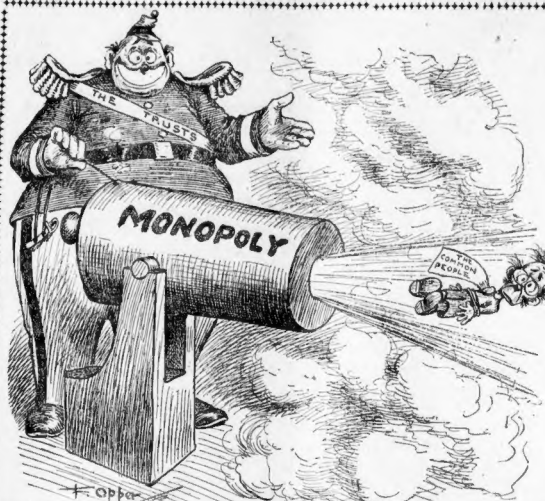

Laws are made for us here, and they are carried out with sacred accuracy, never changing. It is for us to learn to adapt ourselves to them, and to work out our welfare on earth through understanding and submitting to the laws made for our guidance.

For the sake of her remaining children, this mother should try to banish morbid thoughts of self-reproach from her mind. She should find comfort in the children that are left to her and, above all, in the blessed belief that the child which she has lost will ultimately be restored to her.

The reading of such a letter as this should fill with shame the aggressively irreligious man, who would seek to deprive any mother of the comforting belief in a hereafter.

Alone Among Thousands.

BY H. R. R. HERTZBERG.

THESE thousands and millions of things! Not one of them glowing for me! (The lights in the depths and the lights in the heights, The lights in the ships on the sea!) Not one of them glowing, Or glowing, or glowing, The way to a heartache for me!

These thousands and millions of souls! Not one of them calling to me! (The souls on the hills and the souls in the holes, The souls in joy or misery!) Not one of them calling, For succor—when falling— For friendship—when rising—to me!

Fashion Notes for Work-  
ingmen.

BY WILL WRIGHT.

If you hang your coat on a fence, it is fashionable this Spring to keep your eye on the fence. Don't wear a dress suit if you are working in a sewer. Gloves are not to be worn unless you are handling live wires.

It is not necessary to say "Excuse me!" if you fall from a ladder and land on top of the foreman. The foreman will do all the talking that is necessary.

Patent leather shoes are not being worn on scaffolding. It is the proper thing to use a nail if you burst a button. Do not bring your golf sticks to the factory. Shoemakers' aprons are not to be worn a year before. Sleeves may be rolled up during working hours. It is not good form to put on your coat before closing time, unless the foreman has gone home.

Half-worn shoes may be made quite elegant by the use of iron heel taps. Four-in-hand ties are not worn in factories this season, as they may be tangled up in the machinery. It is not usual in Paris to carry the watch in the nail pocket. Silk hats are not worn in the building trades, as they may be injured by falling bricks.

Bridge builders are wearing light shoes, so that they can swim ashore whenever they fall off.

Strong leather belts, with steel hooks at the ends, are popular among window washers. Coat hangers are recommending large bars of soap for the complexion. The report that London bricklayers carry cans while at work has been found to be incorrect.

The Sensible  
New Zealanders.

By Professor Frank Parsons, of the Boston Law College.

THE Aurora Socialists of New Zealand is not so brilliant as the stars that met the astonished eyes of Europe as she gazed across the sea in 1776 at the crimson flames around our Declaration of Independence; nor so intense and awe-inspiring as the lurid glare of the French Revolution; but the light of New Zealand is whiter, clearer, steadier than its predecessors, though it flows from the same eternal fountains of energy, and draws its political electricity from the great dynamo of liberty, equality and fraternity.

There are no bloodred jets in freedom's new-life after fire, as in the days of French awakening, nor is it streaked with slavery's black, as when our Western colonies have turned into flames and liberty's camp glorified the clouds of war for all but the negro slave.

France and America had to use bullets as well as ballots. New Zealand is waging her battles with ballots alone.

France multiplied aristocratic men and women; New Zealand guillotines aristocratic institutions.

New Zealand fought the despotism of a foreign Government. New Zealand is fighting the despotism of the dollar.

The average New Zealander, though enjoying the largest average income in the world, is nevertheless of an economical tone, and does his political thinking for himself instead of paying a boss or machine to do it for him.

He is not a fanatic. He does not look himself up to a little party to wait until the caravan gets to the millennium, but puts his shoulder to the wheel to help the wagon out of the particular slough that is hindering its progress now.

He saw that the Government was controlled by monopolies, and he joined with all who wished it to be in the hands of the people and put it there.

He felt that he was paying too large a share of the taxes, and he voted to put more of them on the rich, who could bear the burden better.

He found that the railways, under the Commissioner system, were being operated largely on capitalist principles, and he voted for candidates pledged to see the roads managed for the public service.

He does not organize a strike against the coal ring or the shipping trust, or other aggressive monopoly, and then vote to keep the monopolies in power by electing men who represent them.

The remarkable thing about New Zealand is that she applies common sense to politics.

The people know that the Government is the great monopoly that underlies and controls all the rest. They believe that legislation should be in the interests of the public and not of any class.

They know that poverty, aristocracy of wealth and private monopoly are opposed to good government, and they have resolved on using it to secure the gradual abolition of commercial conflict and industrial mastery.

They are using democratic political institutions to secure democratic industrial institutions through public ownership, careful regulation, judicial decision and co-operative industry.

The whole movement amounts simply to this: The common people united at the ballot box to obtain control of the Government, and by means of that they have made more progress toward industrial harmony and justice than any other nation on the globe.

The Island Commonwealth has shown the way to the solution of the great problems of wealth division and equalization of opportunity.

A new civilization has come. A new age has dawned. New Zealand is the birthplace of the twentieth century.—From "The Story of New Zealand."

The Oyster's Nobility.

An oyster is a noble thing. These reasons, four of them, suffice:  
First, it is excellent to eat;  
Next, it is gentle and discreet;  
Third, it produces pearls of price;  
And last, it never tries to sting!

OPPRESSION 130 YEARS AGO.  
Editor BOSTON AMERICAN:  
While reading your interesting article concerning the methods of the Beef Trust and the way of spending money from the railroad monopoly, I was struck with the thought of what was called "oppression" in the "pure patriotism" of the old Colonial days. There is a lesson to be learned in commemoration of what was termed the "Boston Tea Party" less than half a mile from the BOSTON AMERICAN plant, and that lesson is allowed to stand for the benefit of the present generation of Americans, and, but, I think, hardly to follow the example of that band of brave patriots, who refused positively to recognize the right of their tea being heavily taxed for the benefit of those whom they thought were "oppressing" them unjustly.

Where there is no parallel in the case of the methods of the Beef Trust of today, and where there is no parallel in the case of the methods of the Beef Trust of today, say one to deny that there is not injustice and oppression to present and others of these patriots who showed their disapproval of the tax on tea and sugar.
